

Horden Nursery School EYPP Strategy 2018/19

Area for Development	Strategy including Rationale	Cost	Evaluation	Impact
<ul style="list-style-type: none"> Support for children within the area of Language and Communication- to ensure children's needs are assessed quickly and support is put in place to develop their confidence and ability to communicate and interact. Staff to receive training on specific areas of Speech and Language. Outdoor Project for groups of children, using the facilities at The Barn, Easington alongside an experienced lead facilitator. 	<p>Our on-entry assessments highlight that many children, including those from the EYPP group, begin nursery below or significantly below age-related stages of attainment within the Prime areas of learning.</p> <p>Many children also have low well-being and self-esteem and have particular difficulties in the area of speech and language. These can have a negative impact on their potential to learn, communicate and interact with others.</p> <p>In response to this analysis, we have acquired an SLA with Speech and Language services to ensure children are promptly supported within this area.</p> <p>We have also developed an Outdoor Learning project that provides a rich climate for learning and nurture that addresses all areas of need. Although all seven areas of</p>	<p>9 children entitled to EYPP- £2720(approx.)</p> <p>Speech and Language SLA for weekly sessions across the year- £1200</p> <p>Lead Facilitator for Outdoor Project, including use of The Barn and Dene area- £1200</p> <p>Transport costings associated with Project- £240</p>		

	<p>Learning and Development (EYFS 2012) are enhanced by this project, we believe that the three Prime Areas see the greatest positive impact. These vital primary areas of any young child's development are crucial to their wider, subsequent learning and progress.</p>	Total- £2640
